MANAGEMENT'S DISCUSSION

AND ANALYSIS (UNAUDITED)

JUNE 30, 2010 AND 2009

The following is a discussion and analysis of the Library's financial performance for the fiscal year ended June 30, 2010, with comparative information for 2009. This section is a summary of the Library's financial activities based on currently known facts, decisions, or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed. This section is only an introduction and should be read in conjunction with the Library's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

- Net government-wide net assets of the Library were \$ 901,989 at June 30, 2010 as compared to \$897,975 at June 30, 2009;
- Government-wide revenues were \$984,912 for the year ended June 30, 2010 as compared to \$973,250 for the year ended June 30, 2009.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: MD&A (this section), the basic financial statements, and notes to financial statements. The basic financial statements include two kinds of statements that present different views of the Library:

- The first two statements are *government-wide* financial statements that provide both *short-term* and *long-term* information about the Library's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the Library, reporting the Library's operations in *more detail* than the government-wide statements.
- The *notes to financial statements* explain some of the information in the statements and provide more detailed data.

GOVERNMENT-WIDE STATEMENTS

The government-wide statements report information about the Library as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the Library's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Library's net assets and how they are changed. Net assets, the difference between the Library's assets and liabilities, is one way to measure the financial health or position.

- Over time, increases and decreases in the Library's net assets are an indicator of whether the financial position is improving or deteriorating, respectively.
- To assess the Library's overall health, you need to consider additional non-financial factors such as changes in the Library's property tax base and the condition of the Library's fixed assets.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the Library's funds, focusing on its most significant or "major" funds - not the Library as a whole. Funds are accounting devices the Library uses to keep track of specific sources of funding and spending on particular programs:

- The General Fund is required by State Law
- The Library establishes other funds to control and to manage money for particular purposes (such as the expendable trust fund) or to show that it is properly using certain revenues (such as the building fund).

The Library has one major type of fund:

- **Governmental Funds:** All of the Library's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Library programs. Because this information does not encompass the additional long-term focus of the Government-wide statements, additional information at the bottom of the governmental funds' statements can explain the relationship (or differences) between them.

CAPITAL ASSETS

As of June 30, 2010 and 2009, the Library had \$782,807 and \$806,863, respectively, (net of accumulated depreciation) invested in various land, building, furniture and equipment. The library materials (books, videos, etc.) are not capitalized, as it is not practical to determine their net realizable values.

LONG-TERM LIABILITIES

As of June 30, 2010 and 2009, the Library had \$37,696 and \$39,058, respectively, in compensated absences. As of June 30, 2010 and 2009, the Library had \$60,000 and \$90,000, respectively, in serial bond payable.

DESCRIPTION OF CURRENT AND EXPECTED CONDITIONS

At the time these financial statements were prepared and audited, the Library was not aware of any significant changes in conditions that would have a significant effect on the financial position or results of activities of the Library in the near future.

CONTACTING THE LIBRARY'S FINANCIAL MANAGEMENT

This financial report is designed to provide the Library's citizens, taxpayers, customers, investors and creditors with a general overview of the finances and to demonstrate the Library's accountability with the money we receive. INDEPENDENT AUDITOR'S REPORT

To the Trustees of the
Voorheesville Public Library

We have audited the accompanying financial statements of Voorheesville Public Library as of and for the years ended June 30, 2010 and 2009, as listed in the Table of Contents. These financial statements are the responsibility of the management of Voorheesville Public Library. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Voorheesville Public Library at June 30, 2010 and 2009, and the respective changes in financial position for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 1 through 5 and 26 through 27 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Library have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

A. Reporting Entity

The Library is organized pursuant to Section 255 of the Education Law of the State of New York representing a public library superimposed on the Voorheesville Central School District, and was chartered by the N.Y.S. Education Department in 1949.

B. Basis of Presentation

The Library's basic financial statements consist of Government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements - The statement of net assets and the statement of activities display information about the Library as a whole. The statement of net assets presents the financial condition of the governmental activities of the Library at year end. The statement of activities presents a comparison between direct expenses and grant revenues for each function of the Library's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Grant revenues are shown as restricted to meeting the operational requirements of a particular function.

Fund Financial Statements - The fund statements provide information about the Library's funds. Separate statements for each fund category are presented. The emphasis on fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following major governmental funds:

General Fund - The general fund is the principal operating fund and is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes. Special revenue funds include the following funds:

1. Expendable Trust Fund - The expendable trust fund is used to account for gifts and memorial donations received by the Library.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements (Continued)

Special Revenue Funds (Continued)

2. Building Fund - The building fund is used to account for the expenditure of money resulting from the sale of the former library building and the expansion of the new building. The expenditures are limited to improving and furnishing the new Library and any surplus shall be used for the support of the Library as the voters of the District shall direct.

C. Measurement Focus and Basis of Accounting

The District-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transactions take place. Nonexchange transactions, in which the Library gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Library considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds.

D. Cash and Cash Equivalents

The Library's cash and cash equivalents consist of cash on hand and demand deposits. New York State law governs the Library's investment policies. Resources must be deposited in FDIC - insured commercial banks or trust companies located within the State. Collateral is required for demand and time deposits not covered by FDIC insurance.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Capital Assets and Depreciation

Capital assets are reported at actual or estimated historical cost based on appraisal of deflated current replacement costs. Contributed assets are reported at estimated fair market values at the time received.

Capital assets in excess of \$300 per item are depreciated in the government-wide financial statements using the straight-line method with capital assets below this threshold being expensed in the year acquired. Estimated useful lives of the various classes of depreciable assets are as follows: building - 39 years, building improvements - 15 years, machinery and equipment - 5-10 years, and furniture and fixtures 3-5 years.

F. Property Taxes

Real property taxes are levied annually by the Board of Trustees in a separate resolution on the same assessment as the Voorheesville Central School District. Uncollected real property taxes are substantially enforced by the county in which the district is located.

G. Vested Employee Benefits

The Library's employees are granted vacation in varying amounts, based primarily on length of service and position. Vacation leave used is based on a last-in, first-out basis. Some earned benefits may be forfeited if not taken within varying time periods.

Consistent with GASB Statement 16, Accounting for Compensated Absences, an accrual for accumulated vacation leave is included in the compensated absences liability at year end. The compensated absences liability is calculated based on the pay rates in effect for the subsequent fiscal year.

H. Budgetary Procedures and Budgetary Accounting

The Library administration prepares a proposed budget for approval by the board of trustees.

The proposed appropriation budget for the general fund was approved by the voters within the district.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Budgetary Procedures and Budgetary Accounting (Continued)

Appropriations are adopted at the program level. Appropriations established by adoption of the budget constitute a limitation on the expenditures (and encumbrances) which may be incurred. Appropriations lapse at the fiscal year end.

Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need which exists that was not initially determined at the time the budget was adopted.

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year. The budget and actual comparison reflects budgeted and actual amounts for funds with legally authorized (appropriated) budgets.

I. Deferred Revenue

Deferred revenues are reported when potential revenues do not meet both the measurable and available criteria for recognition in the current period. Deferred revenues also arise when resources are received by the Library before it has legal claim to them, as when grant monies are received prior to the incidence of qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the Library has legal claim to the resources, the liability for deferred revenues is removed and revenues are recorded.

J. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of monies are recorded for budgetary control purposes to reserve that portion of the applicable appropriations, is employed as a control in preventing overexpenditures of established appropriations. Open encumbrances are reported as a reservation of fund balance since they do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year.

K. Fund Balance

Portions of fund balance are segregated for future use, and are therefore not available for appropriation or expenditure. Designations of unreserved fund balances indicates tentative plans for future use.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Fund Balance (Continued)

The Library's fund balance is comprised of various components.

a. Reserves

The Library's fund balance includes reserves established for the following purposes:

<u>Fund</u>	<u>Reservation Purposes</u>	<u>Balance June 30, 2010</u>	<u>Balance June 30, 2009</u>
General	Reserve for encumbrances	\$ 5,942	\$ 4,716
Trust Fund	Memorial trust	22,082	20,792
Building Fund	Reserve for Library expansion	<u>47,195</u>	<u>47,189</u>
		<u>\$ 75,219</u>	<u>\$ 72,697</u>

b. Unreserved

General Fund - Designated for subsequent year's expenditures.

L. Pension Plan

Plan Description

The Library participates in the New York State and Local Employee Retirement System (ERS). The system is a cost-sharing multiple employer retirement system. The System provides retirement benefits as well as death and disability benefits. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law (NYSRSSL). The System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the New York State and Local Retirement Systems, 110 State Street, Albany, NY 12224.

Funding Policy

The System is noncontributory except for employees who joined the New York State and Local Employees' Retirement Systems after July 27, 1976 who contribute 3% of their salary. Effective October 1, 2000, employees with greater than ten years of service are no longer required to contribute. Under the authority of the NYSRSSL, the Comptroller shall certify annually the rates expressed as proportions of payroll of members, which shall be used in computing the contributions required to be made by employers to the pension accumulation fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Pension Plan (Continued)

Funding Policy (Continued)

The Library is required to contribute at an actuarially determined rate. The required contributions for the current year and two preceding years were:

2010	\$	32,113
2009	\$	36,744
2008	\$	38,499

The Library's contributions made to the System were equal to 100 percent of the contributions required for each year.

M. Capital Assets

Capital asset activity for the year ended June 30, 2010 was as follows:

	<u>July 1,</u>	<u>Additions</u>	<u>Deletions</u>	<u>June 30,</u>
	<u>2009</u>			<u>2010</u>
Land	\$ 154,706	\$ -	\$ -	\$ 154,706
Building	617,660	4,093	-	621,753
Equipment	205,159	5,361	-	210,520
Furniture and Fixtures	131,187	-	-	131,187
Land Improvements	1,800	-	-	1,800
Construction in Progress	<u>26,218</u>	<u>-</u>	<u>-</u>	<u>26,218</u>
	<u>1,136,730</u>	<u>9,454</u>	<u>-</u>	<u>1,146,184</u>
Less: Accumulated Depreciation:				
Building	54,692	15,974	-	70,666
Equipment	159,744	13,627	-	173,371
Furniture and Fixtures	114,891	3,789	-	118,680
Land Improvements	<u>540</u>	<u>120</u>	<u>-</u>	<u>660</u>
	<u>329,867</u>	<u>33,510</u>	<u>-</u>	<u>363,377</u>
Net Capital Assets	<u>\$ 806,863</u>	<u>\$ (24,056)</u>	<u>\$ -</u>	<u>\$ 782,807</u>

Depreciation expense for the years ended June 30, 2010 and 2009 was \$33,510 and \$34,247, respectively.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Indebtedness

1. Long-Term Debt

	Date of Issue	Maturity	Interest	Outstanding at June 30, 2010
Serial Bond	12/15/07	6/15/12	3.24%	<u>\$ 60,000</u>

Serial bond activity for the year ended June 30, 2010 was as follows:

	July 1, 2009	Additions	Deletions	June 30, 2010
Serial Bond	<u>\$ 90,000</u>	<u>\$ -</u>	<u>\$ 30,000</u>	<u>\$ 60,000</u>

The Library's future debt requirements are as follows:

	Principal	Interest	Total
2011	\$ 30,000	\$ 1,458	\$ 31,458
2012	<u>30,000</u>	<u>486</u>	<u>30,486</u>
	<u>\$ 60,000</u>	<u>\$ 1,944</u>	<u>\$ 61,944</u>

Interest expense for the years ended June 30, 2010 and 2009 was \$2,430 and \$3,402, respectively.

O. Subsequent Events

Management has evaluated subsequent events or transactions occurring through December 20, 2010, the date the financial statements were available to be issued.

P. Reclassification

Certain 2009 amounts have been reclassified to conform to the current year presentation.

2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND GOVERNMENT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the government-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the government-wide financial statements as compared with the current financial resources focus on the governmental funds.

A. Total fund balances of governmental funds as compared to net assets of governmental activities:

Total fund balances of the District's governmental funds differ from net assets of governmental activities reported in the statement of net assets. This difference primarily results from the additional long term economic focus of the statement of net assets versus the current financial resources of the governmental fund balance sheets as it relates to capital assets and compensated absences.

B. Statement of Revenues, Expenditures and Changes in Fund Balance as compared to the Statement of Activities:

Differences between the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Activities are primarily a result of capital related items. Capital related differences include the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the statement of activities.

3. CASH AND INVESTMENTS

Available deposits at year-end were entirely covered by Federal Deposit Insurance or by collateral held by a bank in the Library's name. The following is a summary of the amounts collateralized at June 30, 2010:

Amounts insured by FDIC	\$ 250,000
Collateral held by a bank in the Library's name	<u>66,259</u>
Total	316,259
Bank balances	<u>314,966</u>
Excess collateral	<u><u>\$ 1,293</u></u>

4. OPERATING ACTIVITIES

During the course of normal operations, the Library records transactions between funds including transfers between funds to finance various projects.

Interfund receivable and payable balances arising from these transactions as of June 30, 2010 are as follows:

	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	\$ 9,800	\$ -
Expendable Trust Fund	-	1,710
Building Fund	-	8,090
	<u>\$ 9,800</u>	<u>\$ 9,800</u>

5. ADDITIONAL DISCLOSURES

1. Budget Modifications

The 2009-2010 operating budget activity is summarized as follows:

Original adopted budget	\$ 988,600
Revisions:	
Carryover of encumbrances	8,509
Revised Budget	<u>\$ 997,109</u>

2. In-kind Contributions

The Library does not record in-kind contributions since they are relatively immaterial in amount and not easily susceptible to valuation.

6. COMMITMENTS AND CONTINGENCY

1. Unemployment Insurance

Effective January 11, 1979, unemployment insurance coverage became mandatory for governmental entities. Governmental entities were permitted to discharge their liability by either (a) contribution tax method, or (b) benefit reimbursement method. The Library has elected to pay using the benefit reimbursement method, whereby the Library will reimburse the Unemployment Insurance Fund for all benefits paid to former employees of the Library.

6. COMMITMENTS AND CONTINGENCY (CONTINUED)

2. Employee Retirement System

On August 4, 2010 the Library accepted the Board of Education's proposal for repaying a retirement obligation from previous years. The total liability of \$21,932 is to be repaid in annual installments of \$5,483 over the next four years.

3. Compensated Absences

The Library does not accrue a liability for accumulating nonvesting sick leave, since payment is based on an uncontrollable future event (sickness). In accordance with the provisions of Governmental Accounting Standards Board Statement No. 16, the value for accumulating, nonvesting sick leave is considered a contingent liability. The Library estimates approximately \$64,061 in accumulated, nonvested sick leave at June 30, 2010.

4. New Library Proposal

In September 2006, voters approved a proposal to purchase 5.6 acres of land behind the Library. The land was subsequently purchased in December 2006 for \$107,806. The land will either be used to expand the existing building or to build a new one, depending on a future resident vote. A \$150,000 bond anticipation note was issued in December 2006 for the land acquisition and library design fees, which in December 2007 was converted to a serial bond.

VOORHEESVILLE PUBLIC LIBRARY
 STATEMENT OF REVENUES AND EXPENDITURES-
 BUDGET AND ACTUAL -GENERAL FUND
 FOR THE YEAR ENDED JUNE 30, 2010
